DESCRIPTION

A 2018 example of this amazing sports boat from the Italian boat brand Invictus. Designed by Christian Grande the Invictus 250CX has plenty of style and also practicality to match! The 250CX has a raised fore deck providing a well proportioned forward cabin with ample room for an overnight stay. In the cabin you will also find an electric toilet and stainless framed fridge. Above deck the cockpit is well designed with an ergonomic helm station and bolster seats. The boat is also fitted with some of the latest navigation equipment that includes the impressive Raymarine Axiom 9 which is linked through to a Rockford Audio module allowing you to play music via the Raymarine screen. The boat also has under water lights adding to her style appeal!

The boat is offered for sale with a custom made Gecko Aluminium trailer which as you can see from the images looks stunning.

Once off the trailer the boat is powered by the larger Volvo 280 HP inboard meaning she has the performance to match the looks! We strongly recommend viewing this beautiful boat.
