DESCRIPTION

Chris Craft are one of America's oldest, well known & trusted boat builders. Meet "Dagny" she is a model year 2000 Chris Craft 328 Express Cruiser is a fine example of the comfort and quality expected with this brand.

Packed with loads of "big boat" features she has everything on board for cruising in ultimate comfort from plush cushioning and upholstery to plenty of space for entertaining with dinner or drinks on board with friends and family.

This particular model has been specified with air conditioning, electric windlass & extended swim platform. She also benefits from upgraded electronics including autopilot and GPS and more.

She has been lovingly cared for over the years and those with a discerning eye will notice that the engines are not to the original specification of the boat. This is because she has been re-engined with updated Twin 5.7L Volvo Penta 280HP petrol engines. These have extremely low engine hours (under 50) and make cruising and watersports even more of a breeze.

She is not to be missed and viewings are highly recommended. To begin the conversation [message us now](#).
