DESCRIPTION

Meet "Reel Gem" a fantastic example of a Crownline 250CR. This clever compact cruiser is perfect for families enjoying days on the waves.

With a healthy specification list and a whole host of big-boat features all together in this neat package from Crownline. No wonder this model is so popular!

We particularly love the convertible seating/sun pad in the cockpit, which switches focus from cruising to relaxing in a flash. With a large bathing platform with a foldable ladder and transom shower splashing in for a dip is doddle too.

"Reel Gem" has been exceptionally looked after by her current owners, both emchanically and cosmetically and this is evident in her presentation.

Viewings are highly recommended, contact us now to register your interest.
