## DESCRIPTION

---

There's more than meets the eye in this fantastic Norwegian designed Hydrolift X-26S Sports Cruiser. Not only is it super quick (she was designed by Eker Group the famous PowerBoat Champion designers!), she is immensely practical with a completely flat walkaway throughout, 3 berth (2+1) cabin, warm water, shower and toilet facilities on board which does not impede on the space available for days on deck!

All the usual creature comforts you'd expect on a sports cruiser like convertible sun-bed to cockpit table layout, bathing ladder, integrated wet bar with cooler and sink, spray hood, EVA decking, modern stainless steel fixtures and fittings throughout and the latest technology in transducer, plotter and upgraded stereo system on board.

We would encourage anybody thinking of purchasing a Sports Cruiser to explore the HydroLift, she's got all the clever Scandinavian design features you'd expect and the distinct modern styling so popular on the market today. The Hydrolift is unbelievably fast and its clever hull design makes this X-26 with a 250HP Mercury Verado as fuel efficient as you'll find out there!

Viewings are encouraged and this model is a demonstrator, so can be launched for a sea trial if committing to purchase.

More information can be found on the Hydrolift Boats here: <https://hydroliftboats.co.uk>

One Marine have teamed up with the UK distributor of Hydrolift boats based in Poole, Dorset and the vessel will be sold via them, One Marine will act as an introducer only.
