DESCRIPTION

I am delighted to present this extraordinarily tidy 2003 Maxum 1800 SR Bowrider with a huge selection of recent upgrades with a focus on use for Watersports use including a brand new Mercruiser engine last year.

This popular Bowrider is fantastic for first boaters or for those looking to have some fun on the water this year, she has been upgraded both mechanically and cosmetically. Including freshly wrapped dashboard, full SS Competition gauge suite, brand new wakeboard tower fitment, unbelievable Rockville sound system, fitted smart tabs, new Raymarine Dragonfly 5 plotter, Spitfire 4-Blade Propellor and more (see additional extras for full upgrade list)

She is an ultra low hour boat with only 108 when bought (previous dial available to demonstrate this) and 13 on new engine which has really only been run for testing, bringing the total boat lifetime hours is under 130 hours. No stone has been left unturned in the replacement of mechanics including new manifolds and risers, full list seen below. All upgrades have been conducted by a professional Marine Engineer.

She was taken on with the intention of family use and water sports, change of circumstance has meant she will no longer be needed. Making this a fantastic opportunity for someone to purchase a fully upgraded boat ready for the season, she is prepped and anti-fouled and ready to go.

Please message Sophy on sophy@onemarine.co.uk to book a viewing.

N.B. One Marine are advertising this vessel only and will not broker the transaction, the sale will be concluded directly between the owner and the buyer.
