DESCRIPTION

'Astrolabio II' is a well-maintained example of this popular cruiser from the long-established, highly regarded Nimbus range of powerboats.

The Nimbus 345 Coupe is an ideal coastal cruiser, she provides comfortable and spacious accommodation for six with a sea-kindly hull that cruises economically in displacement mode while capable of 20+ knots when required.

Fitted with 2x Diesel Yanmar 4LH STE, a well-regarded engine manufacturer, and including a host of extras such as; Bowthruster, GPS Chartplotter, Autopilot, Tender Davits, Electric Windlass, and much more!

ACCOMMODATION

The cockpit is located to Aft and boasts extremely social seating and the full cockpit canopy means this space is usable whatever the weather. The galley and saloon area are situated through the double sliding doors that create a very open space between inside and outside living/. The saloon has a well-designed 'U' shaped sofa area with a teak leafed table and the famous canter levered seat, allowing for a forward-facing navigators seat. The galley can be found to starboard opposite the saloon and is a well-equipped area with a Refrigerator, stovetop, oven, sink, and plenty of stowage.

This model features a great all-round view at the helm seat which is perfectly placed to have everything whilst helming to hand. A well-equipped heads compartment is located to starboard with shower, WC, and stowage.

To the port side, the first of the two double cabins is situated, with a spacious double berth and stowage in this area. The master cabin accommodates plenty of locker space and benefits from a large island double bed as well as an escape hatch above.
